SUMMARY

Passionate Software Engineer with **3 years** of experience in developing web applications. Skilled at writing clear, concise code that is easy to maintain and troubleshoot. Experienced in working with both small and large teams across multiple projects and companies. Able to work independently of remote locations or in office environments as needed by the company.

PROFESSIONAL EXPERIENCE

Frontend Developer, Learnyst – Bengaluru   Mar 2023 – Oct 2024

- Developed platform-wide **Call to Action (CTA)** features to boost user engagement and conversions, utilizing dynamic templates like pop-ups, slide-ins, and sticky banners, resulting in a significant increase in course sales
- Designed a data structure using a **config-driven approach** to facilitate integration with the React Infinite Tree package, enabling flexible content placement throughout the platform
- Migrated the learner profile data management interface from **Backbone to React**, enhancing the user experience with a newly designed UI focused on course access and enrollment information
- Integrated **HubSpot forms, Sentry bug tool, and June software** to streamline processes and enhance overall platform functionality.

Junior Frontend Developer, Keepworks – Bengaluru   Mar 2022 – Mar 2023

- Integrated three different forms into one to reduce the number of API requests, streamlining the user experience.
- Revamped website text content organization by migrating it to a new file and aligning it with page routes.
- Implemented toast notifications for success and error responses across various pages to enhance user experience.
- Resolved UI bugs and implemented design modifications for better compatibility across various devices.

Projects

Url Shortner   Github

- This URL shortener enables users to create custom shortened URLs and provides analytics, including user counts and access locations, displayed in graphs and pie charts. It features authentication and is a full-stack application
- Tech Stack: React JS, Tailwind CSS, Supabase, Shadcn UI

Github Finder   Github

- This GitHub finder uses GITHUB's API. Users can find GitHub users and view their repos
- Tech Stack: React JS, Tailwind CSS

Expense tracker   Github

- A positive value is taken as income and vice versa, then calculates the the total balance
- Tech Stack: React JS

Technologies

Languages: JavaScript, TypeScript

Technologies: React, NextJS, GraphQL, Redux-Bundler, Redux-Toolkit, Tailwind, Theme-UI, Shadcn

Education

Bachelor of Engineering, Electrical And Electronics   July 2018 – July 2022

Sri Ramakrishna College of Engineering,   Coimbatore
